9

PUBLIC WORKS DEPARTMENT.

Note for Supplementaries.

Sri K. Venkataramana Gowda, M.L.A. desires to know whether a proposal for extension of electric supply from Mangalore to Puttur in South Kanara is under examination and if so, the present stage of the scheme.

2. It may be mentioned that the member gave notice of an identical question in the last session of the Assembly and before an answer was furnished, the question lapsed due to prorogation of the session.

3. The Chief Engineer for Electricity when consulted with reference to a representation from the same M.L.A. in March 1954 whether supply of power might be extended early by providing electric line from the nearby town Mangalore, reported that a preliminary study of the ~~load~~ load prospects in Puthur Panchayat Board area showed that a load of 200 h.p. plus 250 K.W. would come up if power was extended to the area and two important nearby villages namely Vittala and Uppinangadi also showed good prospects. He also reported that a proposal on a ten year basis was being evolved by the Superintending Engineer, Pykara Electricity System for extending supply of power to Puttur Panchayat including a large portion of Puttur taluk and also places like Feringipet, Bentwal and Panmangalore and on receipt of the proposal suitable action would be taken to sanction the proposal if it would be in order. As supply of power to South Kanara District area is feasible only after receipt of

bulk

bulk supply of Jog power from Mysore Government which is expected to materialise only about the middle of 1955, the M.L.A. was informed in this Department's letter dated 2-6-1954 that a proposal for extension of power to Puttur Panchayat areas was being evolved by the Electricity Department and it would be sanctioned if it was technically feasible and remunerative; but that supply to the Puttur Panchayat would be feasible only after the power had been made available from the Jog falls by the Mysore Government and that this was expected to materialise by about the middle of 1955.

4. The Chief Engineer has since reported that the Director of Community Projects has informed him that a sum of Rs.15/- lakhs will be made available from the Community Projects Funds for rural extensions schemes in South Kanara District Community Project Areas (Kumlapur, Karkala and Mangalore taluks) and in view of this he has instructed the Superintending Engineer, Pykara Electricity System to depute special staff to the above rural areas and prepare rural extension schemes to be fed ultimately with Jog power. The Chief Engineer has added that on finalisation of extension schemes in these areas, the work also will be arranged to be completed so that they will utilise power from 'South Kanara Grid' stations immediately after the Jog Power supply is received.

5. According to the principles of priority being followed at present, electricity extension schemes would be taken up under high priority if

a

a loan equal to the capital cost of the scheme is offered as voluntary loan. Since the Community Projects Administration has offered a loan of Rs.15/- lakhs for taking up electricity extension schemes in South Kanara District, they would be executed under top priority i.e. as soon as the extension schemes are finalised and sanctioned; but however power would be made available only after the Mysore Government supply Jog Power to the South Kanara District.

4. The Chief Engineer has incidentally reported that there is another village by name 'Puttur', 2 miles north of Udipi town in Udipi taluk and a proposal for extension of supply of power to 4 mills and one industrial load in Puttur fed from Udipi Thermal Power Station is already under consideration and necessary further action for its sanction is being taken separately. It is presumed that the M.L.A. is referring to 'Puttur' Panchayat Board, the headquarters of Puttur Taluk in South Kanara District and the position regarding extension of power supply to that Panchayat is detailed in paras 3 to 5 above.

T.M.S. Mani,
Secretary to Government.

L.O. No. 9079/54—10 R.L.

20-10-54

P.W.D.(A-2)

Sri K.Venkataramana Gowda, M.L.A. desires to know whether a proposal for extension of electric supply from Mangalore to Puttur in South Kanara is under examination and if so, the present stage of the scheme. The question is starred. Supplementary questions, if any desired by Hon'ble Members, may be put. An advance copy of the question has been circulated to M(W).

2. It may be mentioned that the member gave notice of an identical question in the last session of the Assembly and before an answer was furnished, the question lapsed due to prorogation of the session.

3. The Chief Engineer for Electricity

when consulted with reference to a representation from the same M.L.A. in March 1954 that supply of power might be extended early by providing electric line from the nearby town Mangalore, reported that a preliminary study of the load prospects in Puthur Panchayat Board area showed that a load of 200 h.p plus 250 K.W. would come up if power was extended to the area and two important nearby villages namely Vittalá and Uppinangadi also showed good prospects. He also reported that a proposal on a ten year basis was being evolved by the S.E., Pykara Electricity System for extending supply of power to Puttur Panchayat including a large portion of Puttur taluk and also places like Feringipet, Bentwal and Panmangalore and on receipt of the proposal suitable action would be taken to sanction the proposal if it would be in order. As supply of power to South Kanara Dt. area is feasible only after receipt of bulk supply of Jog power from Mysore Government which is expected to materialise only about the middle of 1955, the M.L.A. was informed in this Department's letter dated 2-6-54 that a proposal for extension of power to Puttur Panchayat areas was being evolved by the Electricity Department and it would be sanctioned if it was technically feasible and remunerative; but that supply to the Puttur Panchayat would be feasible only after the power had been made available from the Jog falls by the Mysore Government and that this was expected to materialise by about the middle of 1955.

4. The Chief Engineer has since reported that the Director of Community Projects has informed him that a sum of Rs 15 lakhs will

be made available from the Community Projects Funds for rural extensions schemes in South Kanara District Community Project Areas (Kundapur, Karkala and Mangalore taluks) and in view of this he has instructed the Superintending Engineer, Pykara Electricity System to depute special staff to the above rural areas and prepare rural extension schemes to be fed ultimately with Jog power. The Chief Engineer has added that on finalisation of extension schemes in those areas, the work also will be arranged to be completed so that they will utilise power from 'South Kanara Grid' stations immediately after the Jog Power supply is received.

5. According to the principles of priority being followed at present, electricity extension schemes would be taken up under high priroity if a loan equal to the capital cost of the Schemes is offered as voluntary loan. Since the Community Projects Administration has offered a loan of Rs 15 lakhs for taking up electricity extension schemes in South Kanara District, they would be executed under top priority i.e. as soon as the extension schemes are finalised and sanctioned; but however power would be made available only after the ~~conclusion of the agreement with the~~ Mysore Government for supply of Jog Power to the South Kanara District.

6. The Chief Engineer has incidentally reported that there is another village by name 'Puttur', 2 miles north of Udipi town in Udipi taluk and a proposal for extension of supply of power to 8 wells and one industrial load in Puttur fed from Udipi Thermal Power Station is already under consideration and necessary further action for its sanction is being taken separately.

S2469/57

2796
6.11

It is presumed that the M.L.A. is referring to 'Puttur' Panchayat Board, the head quarters of Puttur Taluk in South Kanara District and the position regarding extension of power supply to that Panchayat is detailed in paras 3-5 above.

7. Based on the information mentioned in the foregoing paragraphs, a draft answer to the Legislative Assembly Question is submitted for approval- The file may be circulated to M(W) for approval of the draft answer. Paras 1- 6 above may be the note for supplementaries.
